

Flock Information

The Muttontown & Upper Brookville Police Department (MUBPD) uses Flock Safety technology to capture objective evidence without compromising individual privacy. The MUBPD utilizes retroactive searches to solve crimes after they've occurred. Additionally, the MUBPD utilizes real time alerting of hotlist vehicles to capture wanted criminals. In an effort to ensure proper usage and guardrails are in place, the department utilizes a comprehensive auditing program that monitors all Flock data searches by members of the department.

Location of Flock cameras leased exclusively by the Village of Muttontown:
