Tech Updates to Village of Muttontown Website – Statement of Work

To: Incorporated Village of Muttontown Board of Trustees

CC: Joe Russo

From: Jessica Rubano and Ross Mahler, PMG Strategic

October 6, 2026

In response to your request, PMG Strategic is pleased to present our proposal to address the Incorporated Village of Muttontown's website (<https://www.muttontownny.gov>) by providing technical updates and upgrades to the site. As the designers and developers of the site, PMG fully understands the intricacies of the programming and site structure.

Over time, the programming of all websites needs to be updated to the latest standards, upgraded to the newest core of the Content Management System and adjusted to ever evolving technological advances. The Village of Muttontown's website has held up well as a resource for village residents and businesses for almost seven years. Looking at and addressing the technical aspects of your site is an important and prudent step at this stage.

PMG will:

- Create a backup of the site as a safeguard
- Review the code and programming of the site
- Update PHP coding to latest version 8.x
- Update the WordPress platform to latest version 7.x
- Update site/page themes
- Review and update all 30 plugins (determine if any plugins can be deactivated)
- Final site testing and technical QA review

Overall, we are looking at about 8 hours of time at \$150/hour to work on the updates and testing (\$1,200). Please note, there is a possibility that some of the plugin updates may have a subscription or renewal cost associated with them, or some of the plugins may not be able to be renewed due to incompatibility with the latest WordPress core or other reasons. We will advise you in advance before we proceed with researching new plugin options or performing any updates that will require additional cost or time.

After these initial technical and development updates are implemented, we can discuss other aspects of the site that should be reviewed and addressed, such as:

- Website accessibility upgrades
- Cookies and privacy compliance
- Security
- Additional recommendations

Please reach out if you need any clarification, and we look forward to working with you again.
